In keeping with tradition

Some things may be thousands or several hundred years old – but they cannot be significantly improved. However, they can be continued at the highest level: That’s why we like Steiff’s manufacturing concept so much. “Manufacture” as an old Latin term: “manus”, the hand, “facere” to do, build or produce something. And if this thought, this concept hadn’t already existed, we at Steiff would surely have invented it. Creating something with your hands. Allowing skill, experience and craftsmanship to flow into the creation process. Bringing in passion, commitment and lots of love for detail into the creative process – in order to bring something extraordinary and unique to life. But that’s what it is: For us, manufacture is far more than just a fashionable word. Because, true to the spirit of our founder Margarete Steiff, we are fully committed to not only honour the tradition of manufacture, but to continually imbue it with new life. Day after day. With every animal leaving our company so steeped in tradition.

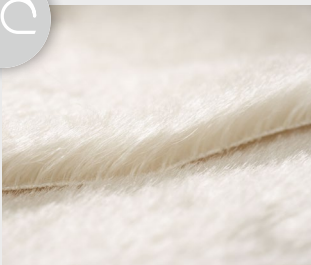

Millimetre by millimetre and thread for thread: simply the best.

Those wanting to create something special and unique of lasting value will need nothing less than the perfect “ingredients”. This not only applies to many other areas but especially to our Steiff manufacture, where we only use “ingredients” of the highest quality: for every Steiff animal, from head to paw. Starting with the thread, the filling material, buttons, eyes and accessories and right up to what is so characteristic for every Steiff animal: it’s “coat” or “fur”, which gives character and form to its appearance. So since 2009 we have been particularly happy to be able to call ourselves the world’s only manufacturer of stuffed toys with its own fabric factory.

Alpaca – soft, silky, opulent

Although the number of alpaca animals in the Steiff range has increased in recent years, the company discovered the material many years ago. Its resurgence in popularity is due to its wonderful feel and tremendous versatility. Alpaca can be used to create both soft Teddy bears and ultra-realistic animals.

Mohair – lustrous, shiny and sleek

This natural material from the wool of the angora goat is the classic Teddy bear material. In fact, it was used for the first Teddy bear ever created. The fibre is both beautiful and durable, which accounts for the amazing number of vintage Steiff creations that appear today in superb condition.

Perfected unique specimen

Characteristics which turn a brand into a legend.

We at Steiff also have good reasons to be proud and happy: after all, the Steiff “Button in Ear” is one of the world’s most renowned trademarks. This world renowned trademark, our “Button in Ear” with the Steiff ear tag, stands for something special, so rare in the hectic days of today: Craftsmanship and creativity, which have firmly established roots and can paint a smile for the future with incomparable designs and innovative products. All Steiff animals from our Collectors’ range are creations of the highest standard, and recognizable by the immaculate workmanship, the quality of the materials, the love for minute details and the legendary trademark: the Steiff “Button in Ear”.

Replicas

The Teddy bears and animals of the replica series by Steiff are a very special and extraordinary species. This means that these true-to-original animals are reproduced exactly according to their historic role models from the Steiff Archives. In order to document this special status, all Steiff replicas have the faithful “Button in Ear” indicating the year in which they were made and, since spring 2017 onwards, a replica ear tag as well. In future, the previous white tag with black lettering will be sewn into the side seam of the product and will contain the article and limited edition number.

Limited Editions

All the animals and Teddy bears at Steiff are very pleased to receive the extraordinary distinction of the white ear tag with red writing because these are produced in a limited edition. This means that only a limited number is available and some are available only in certain countries.

Replicas

A past to touch, experience and love.

It is a fascination which has already made history. A fascination of the here and now – and a fascination with which each and every Steiff friend and collector is continued into the future: the fascination of Steiff replicas. Each and every Steiff animal and Teddy bear has its very own personality, which has its very own story behind it. And this story it would like to tell to its owner and share it with them.

Each Steiff Teddy bear of the limited replica edition is a fascinating entity, an entity which brings the flair of the past into the now: because each replica Teddy bear, from head to paw, fibre for fibre, seam for seam is a faithful recreation of the very first Teddy bear from the very first day. The Teddy bear is lovingly handmade and decorated with traditional tools and in accordance with the original design – as only in this way can nothing but perfection be the result.

New since spring 2017

To further emphasise their special status, all replicas as of this year will “bear” – in addition to the faithful “Button in Ear” – a replica ear tag in their left ear indicating the year in which they were made.

Teddy bear replica 1909

Item no. 403347, 46 cm

made of finest mohair, brown,
5-way jointed, surface washable,
with wooden eyes, with growler,
stuffed with wood shavings,
limited edition of 909 pieces,
with "underscored button" made of
patinated steel

"Good morning, Margarete!" Created in 1909, the original Teddy bear would have had the chance to "bear" witness to visits to the factory by Margarete Steiff herself. Perhaps it was even her suggestion to change his size to 46 cm back then ... So if you become the proud owner of one of the 909 replicas, listen to his growl and follow his gaze when he is thinking back dreamily to the happy hours spent with Margarete.

Bear on wheels replica 1904

Item no. 403354, 22 cm

made of high quality alpaca, brown,
1-way jointed (head),
surface washable,
with wooden eyes,
stuffed with wood shavings,
limited edition of 904 pieces,
with "Button-in-Ear" featuring elephant
motif made of patinated steel

Fun on the move ... Particularly before jointed bears arrived on the scene, Steiff animals on wheels were all the rage. This bear on wheels was produced as early as 1894 in sizes up to 100 cm. Our 17 cm replica corresponds to the 1904 version with a frame and the first "Button in Ear" – an elephant button without a tag. The bear whizzes through the world of his Steiff friends, his wooden eyes shining merrily.

Limited Editions

Particularly beautiful. Particularly rare.

Welcome! The Steiff animals from the limited editions welcome you to the Club of Rarities and Special Beauties. How they become members of this exclusive circle? Well, they must have a very distinct, striking personality, these warm, bright and honest eyes, with a penchant for making themselves scarce – and remaining so. That’s why we are also a little proud that the “limited” attribute of our animals from our factory also always means “especially desirable” for Steiff friends and collectors. The animals from our worldwide limited special editions always find new friends, owners and a new home particularly fast.

Designer's Choice

Classic forms revisited: “Designer’s Choice” invites seasoned Steiff Designers to showcase their skills in an unconventional way. This year’s selected artist is Stefanie Antoniuk, who has been a Steiff Designers since 2012. With her instinctive touch, she whisks us away to painter Gustav Klimt’s “golden period” and the age of Art Nouveau. In his “Tree of Life”, the artist presents life as a composition of multifarious ornaments of uniform importance. “This approach fascinates me”, says Stefanie Antoniuk. “Creating something beautiful without hierarchies or without a specific target in mind is something rather wonderful!” And so Steffi little elephant and Gustav Teddy bear are presented with imaginative, handcrafted decorative elements – the spiritual kinship to the artist also reflected in their names.

Licensed pieces 2018

Diversity and imagination characterises the Steiff range and similarly in the field of licensed products. Licenses entitle us to interpret individual figures - for example, the heroes of famous cartoons who then become unique characters in our range. The result: Enthusiasts recognise their heroes at first glance. They are fascinated by how authentic Steiff figures represent the original. And the world of Steiff is enriched by the combination of countless impressions of the heroes of comic books, fairy tales and stories. The result is a winning one! We are pleased to be able present special licensed products again this year.

The Demiguise is a primate-like creature that resembles a silver-haired orangutan with large, doleful black eyes. It has the remarkable ability to become invisible at will, and has precognitive sight, so the only way to catch it is to do something completely unpredictable. The Demiguise is fundamentally a peaceful beast, but it will give a rather nasty nip when provoked or feels threatened. Unfortunately for the Demiguise, its long, silky, silvery hair can be spun into Invisibility Cloaks, making its pelt highly valuable.

The sprig-like Bowtruckle can be immensely difficult to spot in a natural environment as it is not only very small but also can easily blend into any foliage. It appears to be made out of a tree stem with roots, tiny leafy branches and two brown eyes. Newt has at least six of these little beasts – named Pickett, Titus, Finn, Poppy, Marlow and Tom – though he can't help but play favorites with Pickett, whom he keeps safe in his breast pocket. The Bowtruckle, which eats only insects, is a peaceable and intensely shy creature.

Good-natured but scatterbrained, Disney's cartoon character Goofy is well loved the world over! Goofy first appeared, somewhat disguised, as a member of the audience in Mickey's Revue (1932). Goofy was distinguished from those around him not so much by his languid appearance but his raucous laugh. That laugh created such an impression on Walt Disney that the character was soon featured in other cartoons. Before long, Goofy was part of the gang that included Mickey, Minnie, Pluto, Clarabelle Cow, and Horace Horsecollar. There were 49 Goofy cartoons, but he also appeared in many cartoons with Mickey Mouse and Donald Duck, as well as more recent television series and videos. He is best known for his series of "How to" cartoons, where the audience laughed at his bumbled explanations and antics. Well, who wouldn't laugh, "Gawrsh" everyone knows and loves Goofy!

Richard Steiff designed the very first jointed Teddy bear in 1902, a child's toy bear gifted with movement, a bear that would take the world by storm. Henceforth Richard devoted his entire life to creativity and innovative design and found constant inspiration within the animal kingdom, which he studied in great depth. Over 115 years on Margarete Steiff GmbH continues to strive for excellence in style and imagination within the design of their Teddy bears of today. Steiff proudly presents the first in a series of bear cubs that pay tribute to the providers of their inspiration, yet unfold a brand new fresh design. The wondrous dweller of the lush high altitude forests clothing the slopes of the Andes Mountains, the only living bear species native to South America, the Spectacled Bear is the closest living kin of the short-faced bears of the Middle Pleistocene to Late Pleistocene age. They are one of the most endangered bear species in the world; the most endangered being the Giant Panda Bear which is their closest living relative today. This little darling totally embodies the striking markings of his incentive yet embraces individuality, a scrumptious cub he is indeed.

Steff and SSAFA, the Armed Forces charity are delighted to be working in partnership with the launch of our unique Armistice Teddy bear. SSAFA, the Armed Forces charity, has been providing lifelong support to the Armed Forces, veterans and their families since 1885. At the outbreak of the First World War, the Government called on SSAFA to take care of the families of soldiers going to the Front; providing food for the hungry, housing for the homeless and clothing for those that were destitute. Created to mark the centenary of the end of the First World War, this limited edition Armistice Teddy bear commemorates all those who paid the ultimate sacrifice with their lives and those SSAFA volunteers who helped over one million people between 1914-1918. As the UK's oldest independent tri-service military charity, SSAFA continues to provide personalised practical, emotional and financial support to over 67,000 people every year. The sales of this Steiff Teddy bear will help raise vital funds to support the Armed Forces family; from older veterans to those young men and women involved in more recent conflicts, and their families. PADDINGTON™

Mrs Brown bent down. "You're a very small bear," she said. "I'm a very rare sort of bear," he replied importantly. "There aren't many of us left where I come from." "And where is that?" asked Mrs Brown. "Darkest Peru." Michael Bond based Paddington Bear on a lonely Teddy bear he noticed on a shelf in a London store on Christmas Eve 1956, which he bought as a present for his wife. The bear inspired Bond to write a story; A Bear Called Paddington - first published on 13 October 1958. Little could he have known then how many people from around the world would come to know, love and adore his small bear from darkest Peru. Today, the adventures of Paddington Bear continue to captivate both young and old around the world. His huge popularity has recently propelled him on to the big screen making Paddington a famous film star now! Not only that ... He has BAFTA nominations! This deliciously scrumptious teenie Paddington is only 11 cm tall, but ginormous in character. With a red ribbon attached he can become your constant companion wherever you may be. He can even decorate your Christmas tree. He is exclusive to the UK and USA and is made in a limited edition of 4,000 pieces. He follows extremely proudly behind the hugely successful paw prints of his big brothers from the previous years.

Rin Tin Can appeared in 1960 in the pages of Sur la Piste des Dalton (On the Daltons' Trail). His original name, Ran-Tan-Plan, was already a reference to Rin-Tin-Tin, the canine star of both TV series and films born in 1954 in the United States. But the concept behind him was quite different: to show in the comics series a dog as dumb as Rin-Tin-Tin could be smart on screen!
